

Mische joins Douglas Scientific team

FOR IMMEDIATE RELEASE

Alexandria, MN, August 17, 2012 – Douglas Scientific, a provider of Array Tape™ for high throughput applications in bioscience laboratories, announced the appointment of Hans Mische to Business Development Executive.

Mische is an experienced professional with over 20 years of experience in the medical device industry including product development, manufacturing and business development. Prior to joining Douglas Scientific Mische founded Neuromedx, served as VP, Product Development at Sprite Solutions and Director of New Product Introduction at Trivirix International. He holds 29 US patents.

"Hans is a great addition to the business development team here at Douglas Scientific. His breadth of experience and entrepreneurial spirit are a welcome new addition," says Darren Cook, VP Strategy and Business Development.

Mische comments on his new role at Douglas: "I look forward to working with the talented Douglas Scientific team to deliver innovative solutions to our valued customers and increased value to our shareholders."

About Douglas Scientific

Douglas Scientific is dedicated to making the world a better place by delivering innovative laboratory automation. Array Tape is engineered to be a ubiquitous media for high throughput processing, driving more data at lower costs. The high throughput Nexar® (liquid handling system), Soellex® (thermal cycler) and Araya® (scanner) optimized for Array Tape virtually eliminate manual handling and complex robotics required for microplate-based systems. The platform enables new discovery in plant genomics, animal health, human diagnostics, and pharmaceutical applications at unprecedented speed and fractional costs. By partnering with the most creative and dedicated scientists around the world, the Company delivers advancements to address several imminent global issues and threats. Douglas Scientific is a wholly owned company of Douglas Machine Inc., with corporate offices located at 3600 Minnesota Street, Alexandria, MN 56308. Visit our website at www.DouglasScientific.com.
