

Douglas Scientific Announces Promotions and New Hires

FOR IMMEDIATE RELEASE

Alexandria, MN, March 27, 2012 – Douglas Scientific, a provider of Array Tape™ for high throughput applications in bioscience laboratories, announced several key management promotions along with the addition of two new business professionals to the team. Dan Malmstrom, President and COO, is aligning and adding new personnel to continue the aggressive growth strategies of the company.

“Our drive to deliver disruptive results for our customers is being rewarded with excellent growth and opportunities,” stated Malmstrom. “These talented professionals offer energy and solutions for our customers and our company.”

Darren Cook was promoted to VP Strategy & Business Development. His new responsibilities include: leading market strategy and opportunity prioritization, providing market trend analyses and recommendations, regarding applications, product and alliance opportunities. This new role will also be responsible for development and management of key industry alliances and partnerships. Cook joined Douglas Scientific in 2009 from AbbeyMoor Medical where he held various management positions.

Craig McLain has been promoted to VP Business Operations where he will oversee Sales and Marketing as well as Business Administration for the company. McLain has been with Douglas Scientific since 2009 and prior to that was Chief Operating Officer at American Solutions for Business, a several hundred million dollar company.

Brent Urke joined Douglas Machine in 2004 and was one of the first team members work within Douglas Scientific division. Urke was a natural fit when the division became a wholly owned company and has since been promoted to Director of Manufacturing & Service. He will oversee consumables and instrument production, customer service, manufacturing engineering, and logistics. Urke brings 13 years of mechanical engineering experience from his various positions at Douglas Machine and Fargo Automation.

Additionally, Kaylene Schultz and Jessie Hjelle have joined Douglas Scientific. Schultz assumes the Marketing Manager role and has 11 years of creative and solutions-driven marketing on both the local and national levels. Hjelle has eight years experience in Human Resources and joins Douglas as HR Administrator.

“These five employees are a great fit for our company,” stated Malmstrom. “They each share our values and goals to help customers achieve results in their various laboratories all over the world. We look forward to a long future together.”

About Douglas Scientific

Douglas Scientific is dedicated to making our world a better place by delivering innovative laboratory automation. Array Tape is engineered to be a ubiquitous media for high throughput processing, driving more data at lower costs. The high throughput Nexar® (liquid handling system), Soellex™ (thermal cycler)

and Araya® (scanner) are optimized for Array Tape and virtually eliminate manual handling and complex robotics required for microplate-based systems. Douglas Scientific is a wholly owned company of Douglas Machine Inc, with corporate offices located in Alexandria, Minnesota.
