

Douglas Scientific Welcomes Lebens as New Vice President of Sales

FOR IMMEDIATE RELEASE

ALEXANDRIA, Minn., May 15, 2014—Douglas Scientific, a provider of Array Tape™ for high-throughput applications in bioscience laboratories, announced Tim Lebens was recently hired to serve as Vice President of Sales. Bringing more than 25 years of experience to this role, Lebens will hold executive responsibility for all sales activities, including the Company's instrument, consumable, service, and software.

"Tim will provide Douglas Scientific with strong direction and a forward-thinking approach to its sales initiatives," says Dan Malmstrom, president and COO. "His proven track record, insight and experience in the industry will help us advance our strategic direction and support the company's position in the biosciences industry."

Before joining Douglas Scientific's corporate team, Lebens served as VP of Sales & Marketing at QRS Diagnostics in Maple Grove, MN. Lebens led and managed sales and marketing initiatives for companies he previously represented, including Openwater Inc / Graymark Healthcare and Starkey Laboratories, both in MN. Lebens received his BS degree from St. John's University and his MBA from Illinois Benedictine College.

About Douglas Scientific

Douglas Scientific is dedicated to making our world a better place by delivering innovative laboratory automation for companies, universities and other organizations that specialize in leading-edge genetic research. By creating an entirely automated system, Douglas Scientific provides researchers with results quickly and, because the system is miniaturized, at a fraction of the cost of other methods.

The heart of the system is Douglas Scientific's revolutionary Array Tape, which replaces costly microtiter plate preparations with a polymer strip containing miniature reaction wells. The other components of the system are the Nexar® (an automated liquid-handling system), the Soellex® (a thermal cycler), and the Araya® (the detector) that process the Array Tape and manage the entire analytical process.

In summary, Douglas Scientific partners with the most creative and dedicated scientists around the world to create faster, cheaper, and better tests in fields such as plant genomics, animal health, human diagnostics, and other pharmaceutical/research areas. Douglas Scientific is a wholly owned subsidiary of Douglas Machine Incorporated, with headquarters located at 3600 Minnesota Street, Alexandria, MN 56308.
